Tools: Git, GitHub, VS Code, Postman, IntelliJ IDEA, Maven

EXPERIENCE

Web Development Intern, Remote

July 2024 – Sep 2024

Shripriti Edu. & IT Hub

Gwalior, MP

- Assisted senior developers to get hands-on knowledge in Full-stack Website development.
- Gained experience in scalable app architecture with frontend, backend, and database integration.

PROJECTS

1. Cloud Share - Java Full-Stack

Built **Cloud Share**, a file sharing and uploading platform inspired by Google Drive, using **React, Tailwind CSS, Spring Boot, and MongoDB**. Integrated **secure authentication** with Clerk & OAuth providers, along with **Razorpay payments** for premium features. ([Try it here](#))

2. foodieGo (An online food ordering application) – Java Full-Stack

Developed **foodieGo**, an online food ordering platform using **React.js, Spring Boot, MySQL, and Redux**, with a scalable architecture. Implemented **secure payments** via **Stripe** and integrated an **admin dashboard** for managing restaurants, orders, and users. ([Try it here](#))

3. Nexus-Admin Dashboard – React.Js

Created a fully responsive nexus admin dashboard with React.js and Tailwind CSS, maximizing the view experience on all devices. ([Try it here](#))

TECHNICAL ACHIEVEMENTS

- Completed Java Full-Stack certification course From Udemy.
- Completed Java SE certification course From Udemy.
